

REF NO 10545

Boat name: Monaco

Monaco is a 59 foot cruiser stern narrow boat built by Stephen Goldsborough in 1997 as hire boat for Napton Narrowboats. She is powered by a Canaline engine which was installed in 2020. She is extremely unique as she has a sliding roof over the saloon. From entering from the rear deck there is a twin cabin with two single beds followed by a separate WC compartment with macerator toilet and wash basin. Forward of this is the fully fitted galley with gas hob, grill and oven, stainless steel sink and separate drainer and 12v under counter fridge. Following this is the horseshoe saloon. Next is the bathroom with hip bath and shower over, wash basin and macerator toilet. At the front of the cabin is the double bedroom with doors that lead out on to the well deck. Current Boat Safety Certificate.

Monaco is a real head turner!
